

# Breakout / Lab 07

## Preparation

CSCI 1730 – Fall 2015

## Problem / Exercise

For this breakout lab, spend time with your group working on either your project or your midterm cheatsheet.

## 1 Group Brainstorm

**You are NOT allowed to use the computers during this time.**

Breakup into groups based on your seating and brainstorm about how to solve the problem or exercise. Make sure everyone understands the problem, and sketch out potential ways to move towards a solution. Perhaps something that was discussed during lecture might be useful?

## 2 Submit Individual Brainstorm

**You may use a computer from this point forward.**

Login to eLC and submit a version of your group's brainstorm, written in your own words. You may add additional information if you want. You need to write enough in order to convince the grader that you understand the problem or exercise and that you have a plan for moving forward towards a solution. Please include the last names of the other people in your group in your submission. The brainstorm submission should be available on eLC in your assignment dropbox. We prefer that you submit your individual brainstorms before the end of your breakout period, however, you generally have until 3PM on the day of your breakout (as indicated on eLC) to submit them.

**NOTE:** For this breakout lab, please provide an update on the progress of your project.

**NOTE:** Submissions that do not include an individual brainstorm will not be graded.

**NOTE:** Once you have completed your individual brainstorm, please use the remainder of the lab period to actually begin work on the lab. Failure to do this may result in the taking of attendance.
